## PROFESSIONAL SUMMARY

Full-Stack MERN Developer with hands-on experience building responsive and scalable web applications using React.js, Node.js, Express.js, and MongoDB. Passionate about solving real-world problems, building user-focused products, and continuously growing as a software engineer.

---

## TECHNICAL SKILLS

- **Languages:** JavaScript, HTML5, CSS3
- **Frontend:** React.js, Redux, Tailwind CSS
- **Backend:** Node.js, Express.js, REST APIs
- **Database:** MongoDB
- **Testing:** Jest
- **Tools:** Git, GitHub, VS Code, Postman, Render, Vercel
- **Soft Skills:** Problem Solving, Team Collaboration, Communication, Time Management, Continuous Learning.

---

## WORK EXPERIENCE

May 2025 – August 2025

**Frontend Developer Intern (Remote)**

**FlexiSAF**

- Developed responsive and user-friendly web interfaces using React.js and Tailwind CSS.
  - Integrated REST APIs using Axios to enable seamless communication between the frontend and backend.
  - Implemented role-based authentication and protected routes to improve application security.
  - Managed application state using the React Context API for better maintainability and data flow.
  - Wrote unit tests using Jest to improve code reliability.
  - Collaborated with team members using Git and GitHub in an Agile development environment.
  - Contributed to the development of a School Employee Management System for managing employee records, leave requests, and departments.
-

## PROJECTS

---

### Arispace Store

#### Full-Stack E-commerce Web Application

**Tech Stack:** React.js, Tailwind CSS, Node.js, Express.js, MongoDB

- Developed a responsive e-commerce web application that enables users to browse products, add items to their cart, and place orders.
- Implemented secure user registration, authentication and authorization for customers and administrators.
- Built an admin dashboard for managing products, orders, and customer information.
- Designed and integrated REST APIs for product management, user authentication, cart and order processing.
- GitHub: Arispace [Store GitHub repo](#)
- Live Link: [Arispace Store Live](#)

### School Employee Management System

**Tech Stack:** React.js, Tailwind CSS, Node.js, Express.js, MongoDB

- Developed a web-based system that enables school administrators to manage employee records, departments, and leave requests from a centralized dashboard.
- Built responsive and user-friendly interfaces using React.js and Tailwind CSS.
- Integrated frontend components with backend REST APIs to perform CRUD operations.
- Implemented role-based access control to ensure secure access to different system features.
- GitHub: [School EMS GitHub repo](#)
- Live Link: [School EMS live link](#)

### Azum Medical Website

**Tech Stack:** WordPress

- Developed a medical appointment booking platform that allows patients to schedule appointments with the doctor online.
- Built appointment management functionality to simplify the booking process.
- Live Link: [Azum Medical](#)

## EDUCATION

---

- **Bachelor of Science Degree in Zoology** 2018 - 2023  
Lagos State University, Ojo Campus.
